SUMMARY

Frontend Developer and BCA graduate skilled in React.js, JavaScript, TypeScript, Redux Toolkit, Tailwind CSS, and responsive UI development. Experienced in building responsive, interactive, and reusable web applications with component-based architecture. Completed a frontend-focused development internship involving UI development, REST API integration, debugging, testing, and deployment.

EXPERIENCE

Frontend Developer, CodeMyFYP IT & Software Solutions Apr 2026 – Jul 2026

Developed responsive and scalable web applications using **React.js, Next.js, JavaScript, TypeScript, and Tailwind CSS**. Integrated frontend applications with **REST APIs** and backend services to fetch, manage, and display dynamic data. Debugged and tested frontend functionality, resolved UI and integration issues, and contributed to deployment and production workflows.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C, C++, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design
State & Routing: Redux Toolkit, React Router

PROJECTS

Bite-Box | React.js, Redux Toolkit, Tailwind CSS

Built a responsive food-ordering web application with reusable React components and a mobile-friendly interface. Implemented Redux Toolkit for centralized cart state management, including adding, removing, and updating items. Added food search and category-based browsing to improve product discovery and navigation. Designed reusable UI components and responsive layouts for a consistent experience across devices.

FocusFlow | HTML, CSS, JavaScript, REST APIs, LocalStorage

Developed a productivity dashboard combining task management, daily planning, goals, habits, and focus tools. Implemented a Pomodoro timer, dynamic date and time display, motivational quotes, and weather integration. Used LocalStorage to persist user tasks and productivity data across browser sessions. Built dynamic views, theme switching, responsive layouts, and interactive dashboard components using vanilla JavaScript.

FinTrack | HTML, CSS3, JavaScript, Recharts, LocalStorage API

Developed a personal finance dashboard for monitoring balances, transactions, and spending categories. Created interactive financial visualizations using Recharts, including balance and category-based charts. Built reusable dashboard components such as summary cards, transaction tables, and analytics sections.

EDUCATION

Bachelor of Computer Applications (BCA) – 70%	2025
Class XII – CBSE – 83%	2021
Class X – CBSE – 80%	2019
